

MT-24L SMALL OMNI ANTENNA DIRECTIONAL 2.4 GHz

This very compact mobile-mount omni antenna provides broad coverage and 5 dBi gain. It is ideally suited for PCS applications where omni-directional coverage and low visibility are desired.

Technical Specifications	
Operating Frequency:	2400 MHz
Impedance:	50 ohms
Temperature Range:	-40 +85* C
Dimensions:	
Polarization:	Vertical
Mounting:	Magnetic (or fixed option)
Max. input power:	51 watts
Length:	5" including base
VSWR:	< 1.5 avg.
Gain:	5 dBi
