

ANS-900 OMNI DIRECTIONAL 900 MHz Antenna

This little antenna is excellent for any transmitter or receiver in 900 MHz band. The antenna is using an SMA male connector. Antenna ANS-900 has an excellent VSWR in 900 MHz- 930 MHz range.

Dimensions: 2.0" X 0.25".

Impedance 50 ohms

Weight: 5 Grams.

Measuring 2.0" long, this is flexible antenna features SMA Male connector, allowing them to be used vertically. It is suitable as a replacement RF antenna for 900 MHz radios, wireless video transmitters and receivers, 900 MHz digital spread spectrum radios and more.

Technical Specifications	
Frequency 900-930 MHz	Weight 5.5 g
VSWR < 2.2	Dimensions 2.0" x 0.25"
Housing Material Rubber- plastic	Case Design Water Resistance
Vertical Beam Width 55 degrees	Radome Material ASA with UV Protection
Impedance 50 Ohm	Operating Temperature -45° C to to 75° C
Connector SMA Male type	Polarization Vertical
