## WIRELESS CMOS CAMERAS

### 900 MHz HIGH POWER

---

This is the special version of surveillance video camera 900 MHz - High power. This transmitter was built using the latest technology! The size is just amazing: 0.8" X 0.6" X 0.9" exactly. The picture is broadcast quality. RF power output 50 mW / 9V, the maximum range is app. 1000 ft from the AIR. This unit works well trough walls and it is the newest unit in family wireless 900 MHz video cameras. This wireless camera is using Amplitude Modulation, same as a broadcast TV (better then FM for this band) for the best results. **The range of this camera on the ground is limited anywhere from 50-500 ft depends on situation.**
